About

ORBIS LABSYSTEMS SERVICES

Orbis Labsystems provides Implementation and Support Services for Laboratory Information Management Systems (LIMS). Grounded experience in Lab systems, Instrument integration, and Reporting have enabled us to deliver lasting customer solutions and has distinguished us in the marketplace.

After 20 years and some 400 projects across Pharmaceuticals, Food, Beverages, Chemicals, Oil and Gas and Agriculture, Food Safety, Crop Control and a whole range of testing labs in the government and private sectors. we have a rich and varied experience to share with our customers.

Our Journey

Our systems and implementation journey started in food, with dairies and then moved to food ingredients, processed and ready to eat foods. We also established a good reputation in beverages, soft and alcohol based. In recent years we have done extensive work in the pharma/biopharma space.

Our Commitment

We started as a small company so as we grew, we cherished each customer. In practice this means understanding their business, listening carefully to what they wish to achieve and going the extra mile on each project to win their satisfaction. Our customer approach is one of partnership. We learn the customer's business, and that's a valued and exciting education, and in return we endeavour to reflect this in our solutions.

Our Focus

We put a premium on best practice and compliance and have been certified to ISO 9001 since our foundation. Where our solutions operate in a regulated environment, we ensure delivery on this this key business requirement. To any customer, large or small, we are as excited and committed to delivering success as we were on our first day in July 1998, but now leavened with matchless experience and skills.

Partnership

Orbis Labsystems is an official ThermoFisher Partner. We provide full sales, implementation, and support services.

UPCOMING WEBINARS

[HTTPS://WWW.PJRFSI.COM/WEBINARS/](https://www.pjrfsi.com/webinars/)

Date: Thursday May 13th, 2021 – 2:00pm – 3:00pm EST

Webinar Title: [Food Safety Culture Excellence & Food Safety Americas 2021 Update](#)

Webinar Description - Food safety culture excellence is everywhere! Join Jessica Burke and Paula Parejo from BRCGS as they discuss its principles, the importance of culture in our industry and the paradigm shift that all industries are facing. BRCGS was the 1st scheme owner to implement in their standards, but now, today, can be found everywhere. We will also speak to relevant industry examples of how it has been used to benefit overall product safety. Finally, with the annual conference, one week away, we will discuss last minute topics on Food Safety Americas conference.

Speakers:

- -Jessica Burke, Delivery Partner Relationship Manager, BRCGS
- Paula Parejo, Marketing Strategist, BRCGS

Date: Tuesday May 18th, 2021 – 2:00pm – 3:00pm EST

Webinar Title: [Enterprise Risk Management – Volume 2 – Effectively Communicating Risks from the Shop Floor to the Boardroom](#)

Webinar Description - Join Melanie Neumann, Executive Vice President & General Counsel at Matrix Sciences International, Inc., along with Neil Marshall, Managing Director of Guv Consulting International LLC, former GFSI Board member and former Global Director Quality & Food Safety at The Coca-Cola Company as they discuss the need for clear succinct communication. e.g. translating hazards into risks for the C Suite to understand food safety in business terms, to get the resources needed to mitigate hazards. E.g. Listeria = hazard; a resulting \$10 million dollar recall risk.

Speakers:

- Melanie Neumann, Executive Vice President & General Counsel, Matrix Sciences International, Inc.
- Neil Marshall, Managing Partner, Guv Consulting International LLC, former GFSI Board member and former Global Director Quality & Food Safety at The Coca-Cola Company
